

CITY DIRECTORIES/TELEPHONE DIRECTORIES

The **Wheeler Room** has some city directories and telephone directories of the Ocean County area, and also some from the tri-state area.

A **City Directory** was needed to locate residents of a community for mail delivery and other supplies. It was also used by the local government for tax purposes. It is especially useful to track citizens in the years between the individual Census. It would also sometimes contain the occupation of the person, and possibly his place of employment. Some of these people did not have phones, so the only way to contact them would have been at work.

A **Telephone Directory** will have the address of a customer and phone numbers. The Telephone Directories listed all of their customers that they had at that time. The option of an unlisted number was not available.
